Battcon: The Conference And Trade Show That Reaches Your Customers

Year after year, attendance at the Battcon Stationary Battery Conference and Trade Show continues to grow, giving vendors like you even more opportunities to demonstrate products and offer solutions. Presenting your products and services at the Battcon Trade Show gives you access to a tightly targeted audience and greatly increases your visibility in the stationary battery community.

You can take advantage of this unique opportunity to promote your company to the select Battcon audience by reserving a booth as well as considering the additional benefits of becoming a conference sponsor. Space is available to any attendee who is interested in marketing a product or service.

About Battcon 2017

Battcon is a high-energy mix of industry specific presentations, panels, seminars and workshops, plus a two evening trade show. More than 600 storage battery users meet at Battcon for three days of professional development and networking focused on the design, selection, application and maintenance of stationary battery systems. It's a forum where those in the data center, nuclear, telecom and utility industries can learn from and network with industry experts.

Battcon 2017 will be held May 7–10, 2017 at the Renaissance Orlando Sea World in Orlando, Florida.

Why is it Different Than Other Battery Shows?

Battcon is an educational venue where users, engineers and manufacturers stay up-to-date by learning of the latest industry trends and how to apply best practices to the manufacturing, safety, selection, installation, and use of stationary batteries. The core conference provides an intense learning experience unavailable from any other industry source. Presentations include cutting edge topics delivered by leading authorities. Open discussion panels and breakout workshops geared to the utility, datacenter and telecom segments are also included in the conference.

Data center, nuclear, telecom or utility industry professionals who are working in mission critical facilities or are involved in the development of stationary batteries and related equipment will find the Battcon experience is second to none. Every year, more end users are discovering Battcon, the conference geared for industry novices and seasoned battery professionals alike.

Your Opportunity To Connect With A Qualified Audience

The trade show provides the opportunity to meet with representatives from the industry's leading storage battery related companies, find solutions, and discover the newest advanced products. The trade show is held in the evenings, while the educational component is delivered during the day, allowing attendees to fully experience both the conference and trade show.

Survey Highlights

"I got a lot out of the papers that I will be using in our courses for service technicians."

51% of attendees surveyed plan to make a purchase as a result of information they obtained at Battcon.

A Trade Show Connecting You With The People You Want To Reach

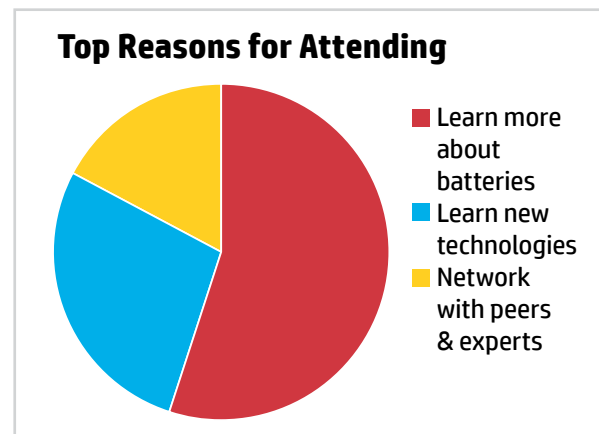

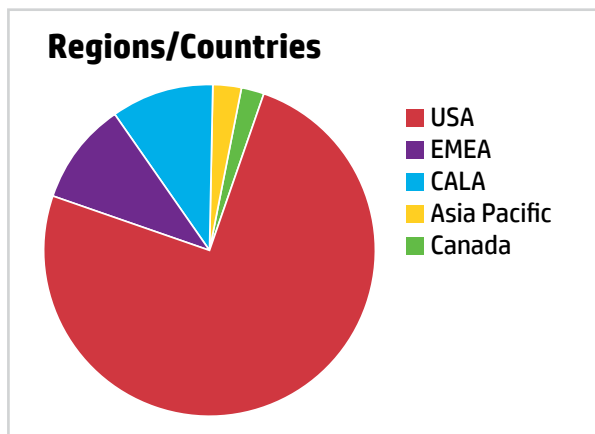

From the first conference in 1997, Battcon has grown to become the world's leading conference and trade show for stationary battery users for one reason: Battcon is simply the best conference in the industry.

Battcon features respected, well-known industry leaders presenting papers and participating in panel discussions and workshops. The two evening trade show is packed with storage power related vendors.

Attendee Profile

Battcon attendance has grown over 20%v since 2012. As an exhibitor at the trade show, you'll reach decision makers in the data center, UPS, power station, telecom, utility, healthcare, petroleum and nuclear industries who maintain mission critical operations, plus battery maintenance specialists from service companies and those in education, government and the military.

Professionals attending Battcon are involved in UPS, switchgear and control, telecom, data center, emergency lighting, engine starting, energy storage, renewable energy, railroad and mass transit, motive power, and marine, automotive and healthcare applications.

Industries

Battery or Equipment Manufacturing	17%
Telecom	16%
Utility (T&D)	16%
Utility (Non-nuclear generation)	14%
Data Center	12%
Power Station	8%
Utility (Nuclear)	5%
Government	3%
Petroleum	2%
Other	7%

Survey Highlights

"Battcon is the best battery conference I've been to."

"Good format with presentations during the day and the trade show afterwards."

Choose a Level of Sponsorship and Exhibit Space That's Right For You

Battcon gives you the flexibility to choose from a range of sponsorship opportunities. Sponsorship at the conference and trade show will increase your business prospects and draw extra attention to your company.
